

Reminder: Bats Global Markets to Introduce Bats Summary Depth Feeds on January 3, 2017

Overview

As previously announced, Bats Global Markets will be introducing the Bats Summary Depth Feeds on January 3, 2017 to deliver aggregated depth and trade information for each of the four U.S. equity exchanges operated by Bats.

Bats Summary Depth, which will be disseminated on a per-exchange basis, can be utilized by customers and vendors to quickly access and distribute aggregated depth data to employees within their own organization or provide externally as part of a product offering. Each feed will provide five price-levels of aggregated depth per security, including the bid, ask, and share quantity for orders received by each Bats exchange as well as the last trade including time of execution, price and share quantity.

Testing Opportunities and Production Release Dates

The Bats Summary Depth Feeds are currently available in all Bats US certification environments. Effective January 3, 2017, the Bats Summary Depth Feeds will be available in production.

More Information

Refer to the previously [published notice](#) and following specification for additional technical and pricing information.
